1. Product

The Pallet is made entirely from eco plastic, a recycled material made from recycled packaging waste mainly. It is more environmentally friendly and sustainable than conventional virgin plastic pallets, and it is also less expensive.

2. Advantages

- Reduce CO₂ emissions by 77% max. compared with virgin plastic pallets.
- Cost-effective due to its high quality and low price.
- Hygienic due to its water-resistant and washable nature. Free from insect infestation and corrosion.
- Designed for JIS standard and certified Eco-mark.

3. Sales performance

Sold a total of 150,000 pallets to 231 companies in Japan

4. Expected Sales Partners

Local distributors, Trading companies, also Green-minded companies.
